authorize.net
A Visa Solution

Authorize.net Gateway is a Visa-owned gateway for secure card-not-present payments, including online, phone, invoicing, and recurring billing, while WAS retains full ownership of underwriting, pricing, settlement, and the merchant relationship.

Centralized acquiring, processing, settlement, and compliance

Authorize.net ➡ WAS (Acquiring & Compliance)

Visa-owned payment gateway that gives merchants flexible digital payment capabilities while WAS controls processing and the merchant relationship.

WHO IT'S FOR

- ✓ Merchants that primarily accept online, invoiced, phone, or recurring payments
- ✓ eCommerce, subscription, nonprofit, professional services, and B2B
- ✓ Partners needing a widely adopted, low-friction gateway that integrates cleanly with WAS acquiring

KEY CAPABILITIES

- ✓ Online checkout, virtual terminal, and digital invoicing
- ✓ Tokenized card-on-file storage and recurring billing
- ✓ ACH / eCheck support and built-in fraud controls

➡ Authorize.net serves as WAS's supplemental digital gateway for card-not-present payments, reducing deal leakage while giving merchants a familiar starting point. As their needs grow, they can easily expand into in-person or omnichannel WAS solutions.
