ODOO CONNECTOR

**ERP-EMBEDDED PAYMENTS FOR INVOICING,
SUBSCRIPTIONS, AND OMNICHANNEL COMMERCE**

The WAS Odoo Connector integrates payment processing directly into Odoo ERP, enabling seamless payment acceptance and reconciliation across invoicing, subscriptions, accounting, and POS, making payments a native part of business operations as companies scale.

WAS ECOSYSTEM FIT

Odoo
Odoo Connector
WAS
Odoo (system of record)

System of record for business operations
Embedded payments bridge between the two
Centralized acquiring, processing, funding, and compliance layer
Odoo Connector → WAS (acquiring & compliance)

An ERP-embedded payments capability for Odoo businesses, not a standalone gateway or POS solution.

WHO IT'S FOR

- ✓ Partners implementing or supporting Odoo ERP
- ✓ ERP-first merchants using Odoo
- ✓ Growing, multi-location, or multi-entity businesses that have outgrown entry-level POS tools

KEY CAPABILITIES

- ✓ Embedded invoice and pay-by-link
- ✓ Tokenized recurring and subscription billing
- ✓ Unified reconciliation across invoices, POS, and subscriptions

→ The Odoo Connector enables WAS to support ERP-driven merchants by embedding payments directly into workflows, enhancing scalability, compliance, and retention while unlocking new partner-led growth opportunities.
