VISA ACCEPTANCE TAP-TO-PAY

**MOBILE, TERMINAL-FREE IN-PERSON
PAYMENTS**

Visa Acceptance Tap-to-Pay allows merchants to accept secure, contactless payments on certified Android devices—no terminal required. Integrated with WAS, it enables fast deployment while keeping processing, funding, and compliance centralized.

WAS ECOSYSTEM FIT

Point of interaction for contactless payments

Secure Tap-to-Pay acceptance layer

Centralized acquiring, processing, settlement, and compliance

Visa Acceptance APK → WAS (Acquiring & Compliance)

A mobile, payment-only acceptance solution designed for speed, flexibility, and low hardware friction.

WHO IT'S FOR

- ✓ Merchants needing immediate, in-person acceptance without buying hardware
- ✓ Mobile, field-based, popup, event, or line-busting
- ✓ Businesses using Tap-to-Pay as an entry point or adjunct to a full POS

KEY CAPABILITIES

- ✓ Contactless card and wallet payments on Android devices
- ✓ Terminal-free, EMV-compliant in-person acceptance
- ✓ Centralized processing, settlement, and reporting through WAS

→ Tap-to-Pay serves as the fastest path into the WAS ecosystem, giving partners a low-friction way to onboard merchants today while preserving a natural upgrade path into full POS and commerce solutions as operational needs grow.
